💡 PROJECTS

Gram-Connect Mobile Application

"GRAM-CONNECT" is an innovative app designed to bridge the gap between rural and urban communities, offering a unified platform for daily needs, local governance updates, and book sharing.

My work was to develop a Module 'Books' which helps user to share or give away books that they don't need anymore through the app. This makes those books available to other users (needy students)

E- Pass Mobile Application Using React Native

- Developed React Native-based Android eBus pass app for efficient student e-pass generation.
- Managed student data seamlessly within the application for streamlined operations.
- Enhanced public transportation services by improving pass management and efficiency.

🏆 ACHIEVEMENTS & AWARDS

NCC Navy C Certificate Holder

Participated In National Integration Camp (Mysore, Karnataka)

Participated at National Level Sailing Camp (INWTC, Vasco)
