GPA: 7.6

Panaji, Goa

Aug 2022 - July 2024

Dnyanprasarak Mandals college and Research Centre

Computer Science Bachelors

GPA: 7.8

Mapusa, Goa

July 2019 - July 2024

EXPERIENCE

Sansrujan Information Technology | Software Developer

Maecel, Goa | Jan 2024 - July 2024

During my internship at Sansrujan, I developed web and mobile applications using technologies such as React Native, PHP, JavaScript, MySQL, and Laravel.

I also gained experience with WooCommerce, WordPress, and Angular. I optimized performance, enhanced features, and collaborated on various projects, which improved my skills in web and mobile application development and version control.

SKILLS

Programming Languages: C, C++, PHP, HTML, CSS3

Libraries/Frameworks: Javascript, Bootstrap, Laravel, Node.js, Firebase, React Native

Tools / Platforms: Git, GitHub, Android Studio, Postman, cPanel, FileZilla

PROJECTS / OPEN-SOURCE

YuvaJagruti Web Application | Link

:HTML, CSS, PHP, MySQL, AJAX, Form Sanitization.

- Developed frontend features, added contest information, and enhanced security using form sanitization to avoid XSS.
- The web application allows participants to register for different contests, storing data in a database and preventing multiple registrations.

Relish Asian Food Industries Website

: HTML, CSS, JS, PHP, SEO tools, AJAX, Form Sanitization

- Created a webpage, added a WhatsApp button, optimized with SEO using Lighthouse, and enhanced security with form sanitization.
- Designed and developed an e-commerce website to highlight food products, focusing on quality, hygiene, and user experience.

Eventify WebApplication | Link

: Laravel, PHP, MySQL, DataTables, JavaScript, Email Notifications, AJAX.

- Designed admin dashboard UI, added DataTables, and developed email notifications.
- This platform manages events for colleges and businesses, streamlining organization and tracking contributions, transactions, and attendance.

Eventify Mobile Application | Link

: React Native, Axios, JS, Android Development, Screen Navigation, Splash Screens.

- Implemented screen navigation, splash screens, and event listings with Axios for data fetching.
- The mobile app allows members to manage event participation, including registration, viewing details, tracking participation, and receiving updates.
